EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: In claim 3 line 3 delete "treaded" and insert --threaded--.

Allowable Subject Matter

2. Claims 1-7 are allowed.

3. The following is an examiner's statement of reasons for allowance: There is no teaching or suggestion in the prior art of the claimed combination having a stationary bracket mounted on the primary pivot post; a bushing bracket pivotally mounted in the stationary bracket; a connecting tube attached to the bushing bracket, being hollow for slidably receiving the top end of the secondary pivot post and having a top end and at least one wedge hole; a locking wedge movably mounted in each one of the at least one wedge hole and having an inclined surface exposed out of the respective one of the at least one wedge hole; a sliding block slidably mounted on the connecting tube over the at least one wedge hole and having a bottom annular bevel slidably abutting the inclined surface of the locking wedge; a basing member mounted between the bushing bracket and the sliding block to provide a restitution force to return the sliding block from an unlocked position to a locked position; and a lever pivotally mounted on the primary pivot post and coupled to the sliding block to move the

Art Unit: 3682

sliding block toward the stationary bracket to the unlocked position; wherein the sliding block is forced by the basing member thereby the bottom annular bevel presses the inclined surface of the lock wedge to clamp the secondary pivot post when the sliding block is in the locked position and is moved toward the stationary bracket by pivoting the lever thereby the bottom annular bevel separates from the inclined surfaces of the locking wedge when the sliding block is in the unlocked position.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
